CVISION Releases
PdfCompressor 6.0

CVISION Technologies, Inc. creates software to optimize the accessibility and processes associated with document capture. CVISION offers the best in file compression, recognition technology and PDF workflow applications. Through superior PDF and document accessibility and optimization, CVISION revolutionizes the paper to digital transformation process, allowing customers to be one step closer to a truly paperless environment.

Maestro provides a flexible OCR solution delivered from a centralized server which enables organizations to easily integrate into their existing document and imaging workflow, while providing multiple workflow accessibility allowing users to perform many image processing functions beyond OCR.
